If inhaled	: Remove to fresh air. Treat symptomatically. Get medical attention if symptoms occur.
In case of skin contact	 Wash off immediately with plenty of water for at least 15 minutes. Use a mild soap if available. Get medical attention if irritation develops and persists.
In case of eye contact	 Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

If swallowed	: Rinse mouth. Get medical attention if symptoms occur.	
Protection of first-aiders	: In event of emergency assess the danger before taking action Do not put yourself at risk of injury. If in doubt, contact emergency responders.Use personal protective equipment a required.	

4.2 Most important symptoms and effects, both acute and delayed

See Section 11 for more detailed information on health effects and symptoms.

Section: 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Advice for non-emergency personnel	:	Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8.
Advice for emergency	:	If specialised clothing is required to deal with the spillage, take

responders	note of any information in Section 8 on suitable and unsuitable materials.		
6.2 Environmental precautions			
Environmental precautions	: Do not allow contact with soil, surface or ground water.		
6.3 Methods and materials for containment and cleaning up			
Methods for cleaning up	: Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).		

For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway.

6.4 Reference to other sections

See Section 1 for emergency contact information. For personal protection see section 8. See Section 13 for additional waste treatment information.
