

PRODUCT GUIDANCE SHEET

MAGIC LOOCARE

READY TO USE DAILY TOILET CLEANER & DESCALER

LOOCARE: A powerful phosphoric acid based toilet and urinal cleaner/descaler for daily use. Safely cleans, deodorises and descales both ceramic and stainless steel toilet surfaces. The viscous liquid descaler clings to sanitary ware surfaces to improve cleaning action. **Caution:** Not suitable for taps, sinks or baths or normal surface descaling.

Product Name:	MAGIC LOOCARE
Description:	Ready to use toilet cleaner, descaler and destainer
Pack Size(s):	12x750ml
Pallet Size(s):	72
Product Code(s):	1026000

HOW TO USE

MAGIC LOOCARE is used directly from the bottle as a ready to go solution and requires no dilution with water.

- **Step 1:** Before use, flush toilet to remove all debris and allow the water to settle. Using a toilet brush, force some of the water in the bowl around the U-bend by digging the brush up and down in the water. This will allow the product contact time with any mineral salts/scale at the water level.
- **Step 2:** Direct the product up under the rim and allow it to run down the inside of the toilet bowl. Leave for 2-3 minutes. Complete the remainder of the surrounding area cleaning tasks. Finally, scrub the toilet bowl with a toilet

brush to remove any stubborn scale or soiling and flush toilet with brush in water to remove any product left in pan or on the brush.

- This product should be applied to toilets at the same time as you pre-spray the other surfaces to be cleaned in the toilet area. Allow suitable contact time to descale heavily soiled toilets.
- Do not squirt the product directly into the toilet bowl water as you will drastically dilute the product thus rendering the performance totally ineffective.
- **Never use this product in conjunction with a chlorine based (bleach) product. It will produce chlorine gases which can be fatal if inhaled.**

FOR PROFESSIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice.
