

PRODUCT GUIDANCE SHEET

MAGIC SHIFT IT

READY TO USE HEAVY DUTY FOAMING DEGREASER

SHIFT IT: A heavy duty surface degreaser that rapidly emulsifies oils and fats and quickly releases baked on grease deposits and carbon from fat fryer surrounds, ovens, grills and other stainless steel catering equipment. Can also be used as a heavy-duty surface cleaner as part of a two-stage cleaning and disinfection process.

Product Name:	MAGIC SHIFT IT
Description:	Ready to use heavy duty foaming hard surface degreaser and oven cleaner
Pack Size(s):	6x750ml
Pallet Size(s):	100
Product Code(s):	1067000

HOW TO USE

MAGIC SHIFT IT is used directly from the bottle as a ready to go solution and requires no dilution with water.

- Its foaming trigger spray turns the solution into foam which helps it cling to vertical surfaces.
- Suitable on all stainless steel catering equipment. Especially used for de-carbonising ovens, grills, hot plates and fat fryers, it is critical for commercial/retail catering applications
- Spray onto surface to be cleaned (avoid breathing fumes). Leave for 15 minutes, spray again and if required agitate stubborn deposits with an abrasive pad; then rinse surfaces thoroughly with clean water.

- For best results the oven surface should be warm. The heat will break up and soften the carbon and will make the cleaning task easier. Remember heat is part of the cleaning equation along with mechanical and chemical energy.
Caution: Do not use on aluminium surfaces or ceramic hobs.

SAFETY ADVICE

DANGER May be corrosive to metals. Causes severe skin burns and eye damage. Wear protective gloves/ eye protection/ face protection. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

FOR PROFESSIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice.
