

PRODUCT GUIDANCE SHEET

SONIC

FLOOR CLEANER CONCENTRATE

A concentrated odourless detergent cleaner formulated to clean floors in commercial kitchens and building services applications. A highly versatile hard surface cleaner that can be used to safely remove ingrained grime from surfaces including safety flooring, vinyl, ceramic and painted surfaces.

Product Name:	SONIC
Description:	Concentrated floor cleaner
Pack Size(s):	2x5Lt
Pallet Size(s):	80
Product Code(s):	1415000

HOW TO USE

It must be diluted correctly with water to prepare effective cleaning solutions. Product is dispensed via a standard 5lt pelican pump, manual wall mounted bottle/bucket pump or via an automatic chemical/water mixing station available from us on a free-on-loan agreement basis.

Sonic is non-biocidal and is therefore suitable for domestic cleaning applications in hospitals. The formulation is approved by Altro Flooring (tested via Altro Evaporation Test at 25:1*) and is therefore likely to be safe to use on all similar types of safety flooring at the stated dilution to prevent colour loss.

Weekly Heavy Duty Floor Cleaning:

Add 3-4 plunges of dispenser per 3lt to 8lt, and 6 plunges per 12lt bucket capacity. For best results in commercial kitchens, mop the chemical/hot water solution onto the floor, leave the solution to work on the grease and grime for at least two

minutes, then using an appropriate hard bristled brush, deck-scrub the floor. When completed, take a fresh, clean warm water solution and mop the floor free of chemical and residues.

Floor Scrubbing Machine:

Add 500mls per 80lt of water in the machine tank, or use a HI-FLOW chemical/water mixing station. Scrub floor to remove grime and remove the slurry.

Floor Cleaning in Hard Water Areas:

If lime scale is present in the wash water it is a barrier to effective cleaning. It builds up over time and forms an invisible coating, preventing grease and grime removal. To remove scale films, clean the flooring periodically with a diluted solution of acid descaler. Please seek advice from the manufacturer first.

The product is a concentrate designed for economy in use, so follow the recommended dilution rates as over concentration of chemical may cause smearing on surfaces or leave them tacky. If this happens wipe down with a damp cloth or mop with cold clean water.

SAFETY ADVICE

Not classified as hazardous, however we advise that normal cleaning safety practices are adopted. Wear protective gloves. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical attention.

For further detailed information on this product please refer to the Safety Data Sheet.

FOR PROFESSIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice.
